D	Alt 68	p	Alt 112	í	Alt 161	¨	Alt 0168	þ	Alt 0254

To type a special character, using an Alt keyboard sequence:

1. Ensure that the **Num Lock** key has been pressed, to activate the numeric key section of the keyboard.
2. Press the **Alt** key, and hold it down.

3. *While the **Alt** key is pressed*, type the sequence of numbers (on the numeric keypad) from the Alt code in the above table.

4. Release the **Alt** key, and the character will appear.

There are some gaps in the numerical sequence of Alt character codes, because either those elements do not exist, or they are duplicates of elements listed elsewhere.

†Some word processing programs will not recognize these Alt functions.

‡Many fonts improperly display Alt 166 as ª rather than º, and Alt 167 as ° rather than ª.
